

## EAO Introduces IP69K Series 61 Compact Emergency Stop Switch

*Robust construction meets new EN13850 requirements*

SHELTON, Conn., Nov. 2017 - [EAO](#), the expert partner for innovative, intuitive and reliable Human Machine Interfaces (HMIs), announces the availability of the new [Series 61 Compact Emergency Stop Switch](#). This durable unit offers critical safety controls that reliably protect people and equipment against injury and damage in even the harshest industrial environments.

The Series 61 Compact Emergency Stop Switch features a robust mono-block design with a fool-proof, mechanically decoupled triggering action. With a minimal 21.2 mm back panel depth, this stop switch is ideal for handheld control units or easy-access mounting directly to machines.

Optional LED illumination ensures the status is clearly visible in all lighting conditions. Furthermore, each switch is available with up to three individually normally open (NO) or normally closed (NC) contacts and a 27 mm or 40mm diameter lens.

The Series 61 Compact Emergency Stop Switch complies with the latest international standards including IP69k and IP67 sealing. This front protection ensures reliable functionality in even the most adverse conditions.

### **Key advantages of the Series 61 Compact Emergency Stop Switch include:**

- Meets EN ISO 13850, EN 60947-5-1, EN 60947-5-5 and EN IEC 60204
- High front protection IP69K and IP67
- Very low back panel depth (21.2 mm)
- Up to three switching elements
- Globally recognized complete, single part number
- Optional illumination (6-32VDC)

### **About EAO:**

#### ***Human Machine Interfaces. Since 1947.***

[EAO](#) AG, a Swiss, family-owned company founded in 1947, has developed into one of the world's leading manufacturers of high-quality switches, keyboards, sophisticated control elements, and complete HMI control units and HMI Systems. With over 600 dedicated employees, EAO has a global production and distribution network at its disposal. And with production sites in Switzerland, Germany, North America and China, as well as our 11 country sales company and distributors in over 50 countries, we can guarantee global availability.

### ***Your solution-focused expert and partner***

EAO does much more than just manufacture individual control elements. As a solution-focused partner, we provide the option of technically and mechanically customizing existing HMI Components in line with our customers' individual requirements. From simple control elements through to sophisticated HMI Systems, from serial production through to installation – we offer the entire range of HMI services and inspire the confidence of our customers.
