

EAO Series 18 Offers Tactile, Compact and Bright Solution

SHELTON, Conn., December 2017 - [EAO](#), the expert partner for Human Machine Interfaces (HMI), enhances its HMI capabilities with the availability of the Series 18.

The product line offers a range of tactile, compact, raised and flush mount actuators and indicators for reliable use in indoor applications.

Typical applications include:

- Laboratory and measuring equipment
- Medical equipment
- Audio and video applications, such as mixing desks and mobile camera control systems
- Lighting and stage control systems

The precise tactile action provides positive feedback of the switch operation, while the bright red, green or yellow illumination offers clear status indication. Other colors, such as white or blue are available upon request. The plastic lenses are available in round, square and rectangular shapes as well as a variety of sizes and colors. The lenses can also be marked with texts or symbols, providing the operator visual cues.

Advantages

- Excellent tactile feedback
- Outstanding illumination
- Long service life of up to 2 million switching cycles
- Gold-plated nickel contacts for low voltages and currents
- Flush or raised, compact design

Overall, the tactile Series 18 actuators and indicators are ideally suited for reliable use in applications where mounting space is limited and excellent illumination is required. For more information, please visit

About EAO:

Human Machine Interfaces. Since 1947.

[EAO](#) AG, a Swiss, family-owned company founded in 1947, has developed into one of the world's leading manufacturers of high-quality switches, keyboards, sophisticated control elements, and complete HMI control units and HMI Systems. With over 600 dedicated employees, EAO has a global production and distribution network at its disposal. And with production sites in Switzerland, Germany, North America and China, as well as our 11 country sales company and distributors in over 50 countries, we can guarantee global availability.

Your solution-focused expert and partner

EAO does much more than just manufacture individual control elements. As a solution-focused partner, we provide the option of technically and mechanically customizing existing HMI Components in line with our customers' individual requirements. From simple control elements through to sophisticated HMI Systems, from serial production through to installation – we offer the entire range of HMI services and inspire the confidence of our customers.
