

Dear Renee,

A global supply shortage of Wellamid plastic material is impacting the lead times of E-T-A product series **2210-T** and **ESX10**.

Lead times of the aforementioned product series are temporarily being increased to 10 weeks. Our Inside Sales & Service team will contact you should this material shortage affect any existing purchase orders.

Our procurement team is working diligently with our supplier base to reduce the impact of this material shortage. Please contact me or your Inside Sales & Service Representative should you have any questions.

Sincerely,

Joe Kovar
Inside Sales & Service Manager
