

LITTELFUSE UPDATE ON CORONAVIRUS (COVID-19): MARCH 24, 2020

To our valued partners,

We want to thank you for your patience during this very challenging situation and provide an update on our response to the ongoing coronavirus (COVID-19) outbreak. The health, safety and well-being of Littelfuse associates, their families and our communities remain our top priority and we are complying with all local, state, and government requirements to help prevent the spread of the coronavirus.

We continue to closely and actively monitor the situation and we are taking preventative measures to help mitigate the impact from the outbreak. We have restricted travel, implemented remote working policies where possible, canceled meetings and tradeshows, restricted visitors, and enhanced the cleaning and disinfection procedures at our sites. These actions have been taken to maintain social distancing and minimize risk for our associates.

While this is a rapidly changing situation, Littelfuse is doing everything possible to limit supply chain disruptions and serve our customers. Over the next several days our planners and customer service representatives will be working to update any open orders impacted by potential supply chain disruptions. Subsequently change notifications will be communicated via email or EDI (Electronic Data Interchange) system.

We will continue to evaluate this developing situation and will advise you of any anticipated changes to our approach. Your local sales representative or customer service representative will be providing these details as soon as they are available.

We appreciate the opportunity to do business with you and we thank you for your patience and support.

Sincerely,

Littelfuse, Inc.
