Picker Coronavirus Update

Dear Valued Customer,

The spread of COVID-19 (otherwise known as Coronavirus) around the world is causing unprecedented changes to the way businesses operate.

Picker components is considered an “Essential Business” and we will remain open and continue to serve our customers with some slight modifications to our daily work.

Non-essential workers will be working from home until at least April 4th (sales, engineering, customer service, accounting). Please continue to contact these departments through email and telephone as we will be responding to all your requests.

Our warehouse and shipping department will continue to operate as before during normal business hours. Our goal is to cause as little disruption as possible during these changing times.

While it may not be business as usual, we are all in this together. From our team to yours, stay safe and healthy.
