

Sunon 2019-nCoV Notice

Update: 2019-nCoV. (As of 3/24/2020)

This is the latest update regarding the impact of the 2019-nCoV. **Sunon is having 80% capacity at this moment.** We are working very closely with local government and our suppliers for any updates. At this point we do not have any new updates from any parties.

Sunon's standard lead time is 12 to 14 weeks. However, this does not count the supply chain disruption for the next several months. For existing bookings may be delayed until the entire country has returned to work. For the orders already in the pipeline at the factory level, Sunon is currently working hard to ensure the delays are minimal. In the meantime, we will continue to closely monitor the situation and provide timely updates as information becomes available.

Sincerely Yours,

SUNON Inc.
