

Conflict Minerals

2017

To our valued customers,

As a distributor, Wes-Garde Components is reliant on the manufacturers of the products we sell to provide us with information pertaining to the origin of the raw materials used to produce their products. Annually we survey our authorized manufacturers requesting them to fill out the EICC-GeSI reporting template as the standard for our due diligence effort to comply with section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Wesgarde is not qualified to complete Conflict Minerals Reporting Templates (CMRT's) for the products we distribute, therefore, we will follow the direction of the Electronic Components Industry Association (ECIA) by providing the CMRT's from our manufacturing partners to our customers to the best of our ability. Any questions related to the CMRT's will have to be addressed directly with the manufacturers themselves. Additional information from the manufacturers may also be found on the ECIA website <http://www.ecianow.org/industry-issues/conflict-materials/member-company-information/>

Best regards,

A handwritten signature in black ink that reads "Tom Pike".
