

Complete Food Equipment Product Solutions

High Quality Components

Wesgarde works with dozens of food processing machinery and equipment manufacturers developing innovative cooking, cooling, grinding, sifting and sorting solutions. From industrial, room-sized machines capable of processing ingredients by the ton to highly specialized devices designed for the poultry, meal and dairy industries. Not only do we offer the best products, but we combine them with unmatched personal service, innovative inventory solutions, and Value-Added services that many OEM customers have come to rely on.
